Platforms & Infrastructure: Git, Linux, Docker, Nginx, Netlify, PostgreSQL, Google Analytics, Google Tag Manager

AI & Developer Tooling: Claude Code, Cursor, OpenClaw, MetaTrader 5

Development & Data: Python, SQL, TypeScript/JavaScript, React, Next.js, FastAPI, pandas, PowerShell, Excel

PROJECTS

AI Content Automation System | Harrison Insurance Agency

2025 - Present

- Built and operate an unattended Linux automation pipeline that uses AI tools to generate, schedule, publish, and monitor video content across four social platforms three times daily for a live business
- Integrated the bundle.social API for multi-platform scheduling (upload, processing-status checks, publish) with authentication handling and failure recovery
- Reviewed platform analytics to evaluate content performance and shifted production from educational content toward higher-performing comedy and skit formats

Algorithmic Trading and Risk Platform | Independent Project

2024 - Present

- Built and operate a trading platform supporting multiple accounts, configurable strategies, backtesting, risk controls, and live monitoring, translating trading requirements into structured analytical workflows
- Diagnosed and resolved live-order failures caused by a broker filling-mode incompatibility
- Implemented position-sizing, consecutive-loss, and daily-equity controls backed by automated tests; earned access to a \$75,000 funded account through an external evaluation

ClipBot

- Python/FastAPI pipeline that transcribes long-form video with faster-whisper, selects clip-worthy moments from the transcript, and cuts captioned short-form videos with FFmpeg

PowerShell dashboard

- PowerShell dashboard that risk-scores listening TCP services on a host

Debian home-lab appliance

- Debian home-lab appliance running Pi-hole, Nginx, monitoring, and a FastAPI dashboard

PROFESSIONAL EXPERIENCE

Harrison Insurance Agency | Technology & Digital Operations

Mar 2020 - Present

- Rebuilt the agency website, planoinurance.com, in React/Vite on Netlify; implemented Google Tag Manager and Google Ads conversion tracking to support digital performance analysis
- Operate the agency's AI content automation and social media systems, using analytics, workflow automation, and process improvement to manage website, automation, and digital operations after progressing from administrative support

Dallas Digital | Digital Marketing Intern

May 2023 - Aug 2023

- Optimized Google Ads campaigns and client social media strategies; delivered analytics reports that translated performance, reach, and conversion data into actionable recommendations

Giovanni's Italian Restaurant | Assistant Manager

2021 - 2022

Luxury Lawn Services | Owner & Operator

2021

HONORS

- President's Honor Roll, Oklahoma State University (Spring 2024, Fall 2025)
- Dean's Honor Roll, Oklahoma State University (Fall 2024) and University of Arkansas (2022)
